## Summary

Senior Frontend Developer with 12+ years of experience in building dynamic web applications using Angular, HTML, JavaScript, and TypeScript, along with cross-platform mobile apps using Flutter. Strong background in leading frontend teams, managing code quality, and working with Git-based version control. Skilled in MongoDB, and experienced with agile tools like JIRA and Confluence. Focused on delivering clean, user-centric solutions and driving effective team collaboration.

## Experience 13 yrs, 5 mos

### Team Lead

Nov 2024 – Present

Solveall solutions Pvt.Ltd.

Over 8 years of experience in designing, developing, and maintaining complex software applications in agile environments. Proficient in full-stack and frontend development with strong expertise in JavaScript, HTML, Angular, and Flutter for building scalable, high-performance web and mobile applications. Proven ability to lead cross-functional teams, deliver projects on time, and optimize enterprise systems for performance, reliability, and user experience. Adept at implementing best development practices, enhancing system scalability, and driving continuous innovation in software engineering.

- Highlight your accomplishments, using numbers if possible.

### Team Lead

Sep 2023 – Aug 2024

ChainTech Network Pvt. Ltd

In my role as a Team Lead at Chaintech Network, I spearheaded the frontend team's efforts in the crypto domain, specializing in Angular version upgrades. I mentored team members to tackle real-world problems and enhance their expertise in the field. By successfully upgrading Angular versions, we were able to improve performance and user experience, contributing to the company's success.
